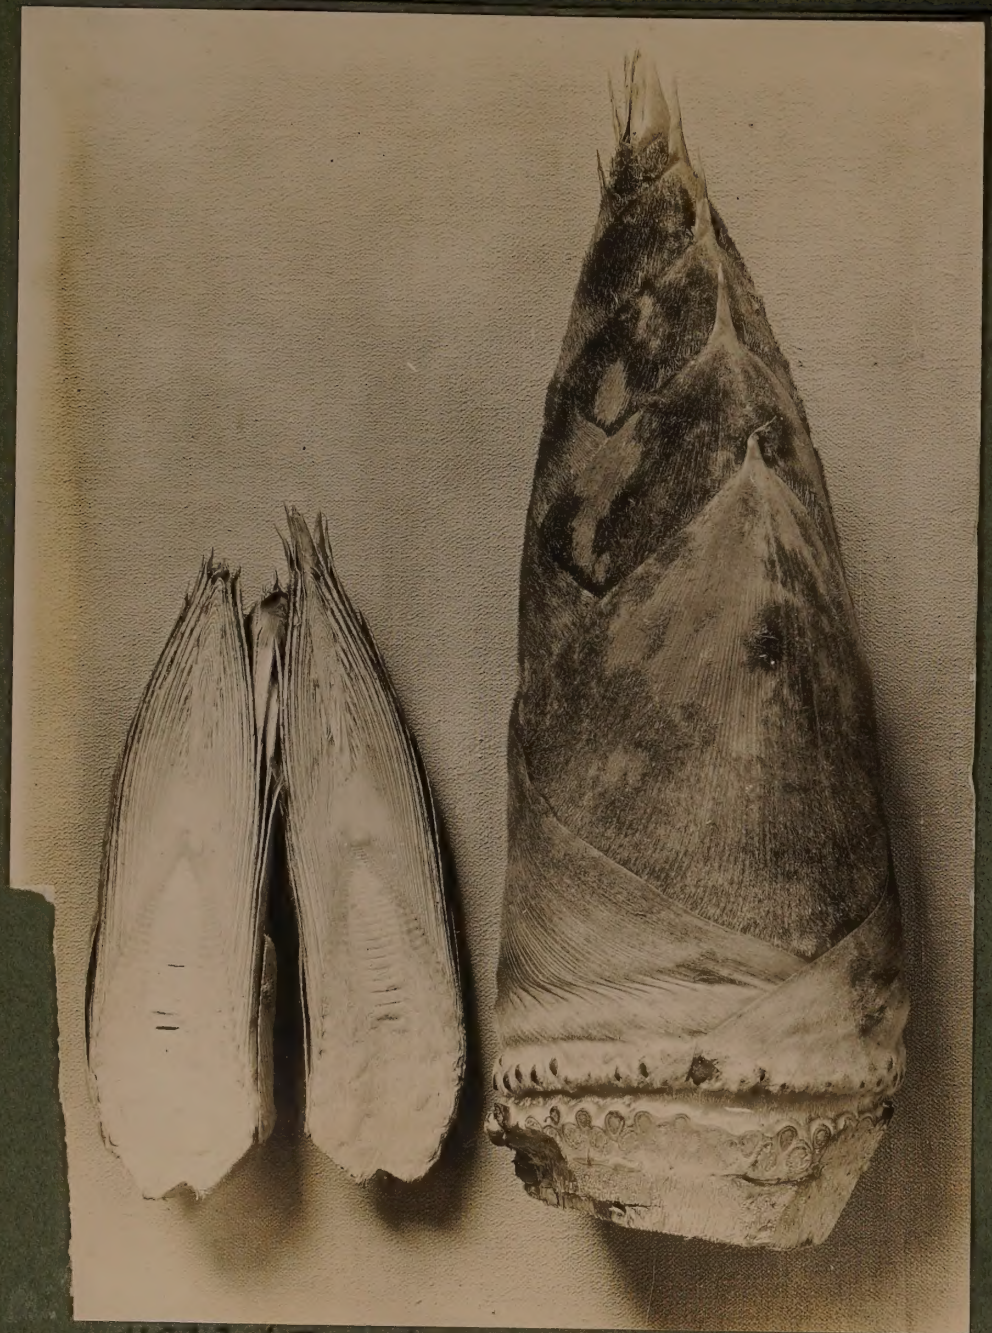
43467 A slightly different views of a native lady and small child at the bamboo bridge at the other end of the bridge shown in #43466. 4-28-29

43468 Bamboo gate at a bridge the same as shone in 43467 but the person has changed

43493 Tricycle bamboo carrying baskets. One loaded one empty- Hibia Park- 4-29-29



43324 Bamboo shoots, Japan Large one 12" Small one 7"

43505 Lady purchasing bamboo shoot from a vendor on the street. See picture # 43506

43506 Bamboo shoot vendor, a shoot at his door 2 m in the ground and he is reaching for another taken in the village adjacent ashinagyama Park at Uji Station

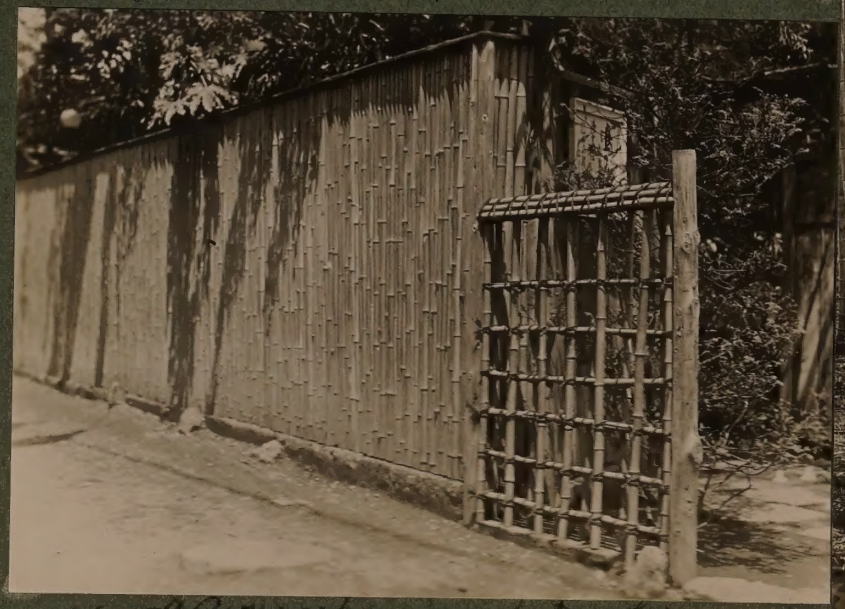
43430 View under a wisteria arbor at the Botanical Garden, from a position near the lake looking toward the hillside. Tokyo, Japan.

43533 A quarter to half size fabric of cooked rice wrapped in a bamboo sheath and tied in with split bamboo strips. Obtained with a strip of the same material. This makes a very neat package. Obj. measures 10" in length.

View showing bamboo containers of various sizes and with a variety of textures. They are filled with a pasty substance and have a cork stopper.

43-51-35 The restored container shown two views, one on the right is cut to reveal the contents. The other is unopened. Both are filled with a pasty substance and have cork stoppers. The two bottle containers were recovered under #1147

43541 Nearby view of a portion of the collection of the Peoples Exhibit at the Horticultural Experiment Station.



43559 A nearby view of two kinds of bamboo fences just off of main street (the streets aren't named) which is very attractive.

43560 Bamboo grove planted 60 or 65 years ago. Canes should be removed every 2 years.

43561

A shoot about 3 feet in height left as a removal shoot.

43562

A shoot of bamboo on its way which will likely be dug to-morrow.

43563 View of a portion of Mr. Ichida's bamboo grove nearest his house in which shoots are only recently removed. On each side of the picture is a removal shoot. Note. The renewing is done every 7 or 8 years.

43564

View showing nearby three bamboo baskets, two filled and one partly filled with bamboo shoots loaded on a bicycle trailer ready to go to market.

Mr. Ishida in his bamboo grove digging bamboo shoots. The largest season is from about the middle of April to the middle of May. They dig the shoots every three or four days. Mr. Ishida has about an acre of bamboo and harvests at each digging about 2,000 pounds of shoots.

435654

43566

Mr. Ishida and his helper in the bamboo grove. They stopped digging bamboo shoots for a few minutes for us to take this picture.

43567

Showing a portion of a large pile of bamboo shoots in Mr. Ishida's shed ready for taking to market.

43568

Mr. Sugetake talking to Mr. Ishida in away of this of this grove of bamboo, about the culture of bamboo shoots.

43569

A shoot left as a renewal shoot. It is between 4 or 5 feet high.

43570 A nearby view of the actual digging of a bamboo shoots.

43572 Another view showing the digging and gathering of bamboo shoots.

43573 A basket of bamboo shoots in the grove ready to be taken to the shed where they are kept until sent to market.

43585 View of one of the Wisteria (purple flowered) arbors in Shiba park about 10.00 a.m. Sunday morning.

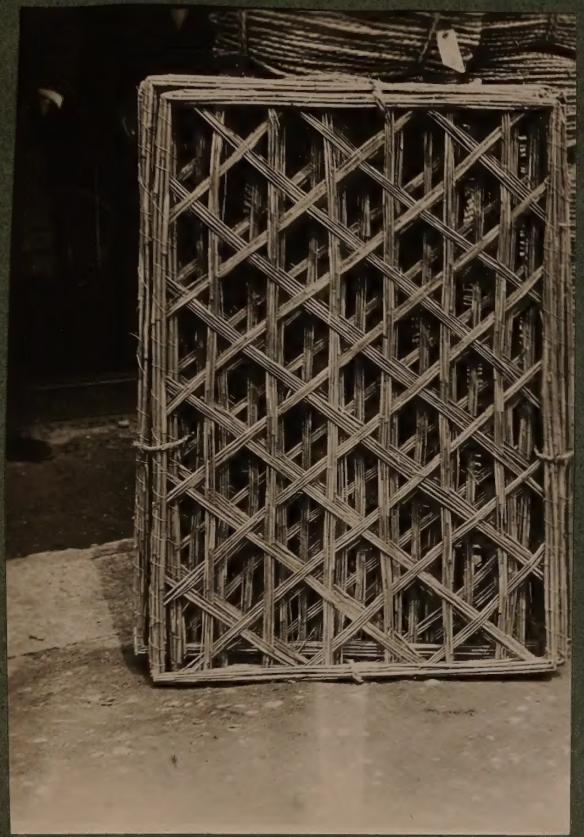
43601 Women bamboo fence in Meiji Shrine grounds.

43600 Bamboo fence at the entrance to Meiji Shrine ground. This makes good and strong bamboo fence.

A fisherwoman after a few minutes of 43624 this picture was taken. She caught one.

43632

This is the third picture taken from the same position. It is the last picture on the right with numbers 43631-3 make a fairly good panorama view of the south side of the Ashikjima wisteria arbor



43642

Over this bamboo tray is spread a mat of woven grass or paper and up this many dainty leaves are spread for the Sickwarms, breakfast, tiffin and dinner.

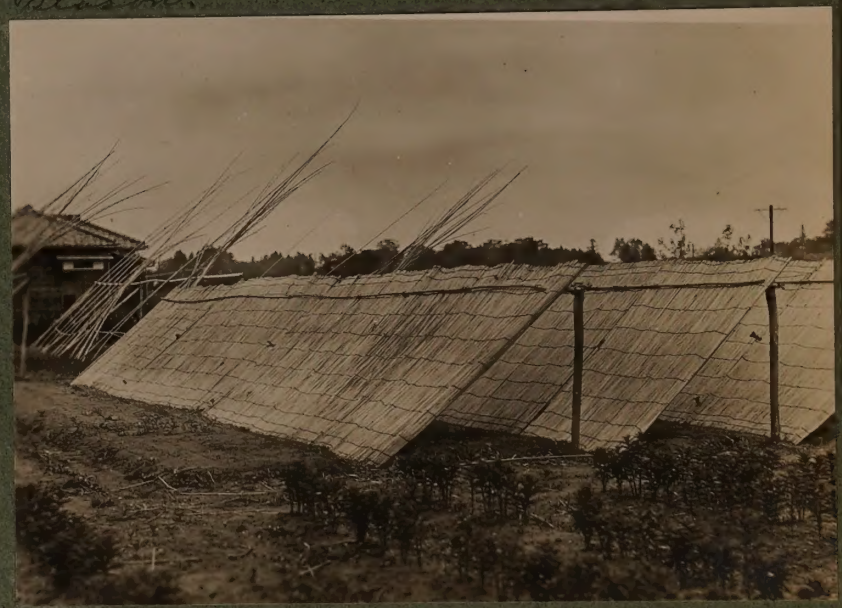
43644

A shipping basket of split bamboo at the railway station, at Kasukabe, Japan.

43643 Inspecting bamboo baskets of two types sold in front of a shop near Kasukabe, Japan.

43649 Leaning trellises of bamboo poles up this trellis morning glories grew last season.

43648 A grow house side wall protected with a bamboo screen and roof screens of bamboo rolled up at the ridge



43650 Bamboo mats used to protect plants beds.

A fairly nearby display of vegetables at a market dealers place on the main street of a small village in Tokyo suburbs.

43655

43655 Section of a large bamboo culm which has been transformed into a package for holding (for sale commercially) vegetable pickles. The handle is of Kudzu vine. The stopper is of cedar, Cryptomeria japonica. It assumes its purpose admirably and makes a new and attractive parcel.

43662

43572 Another view showing the digging and gathering of bamboo shoots

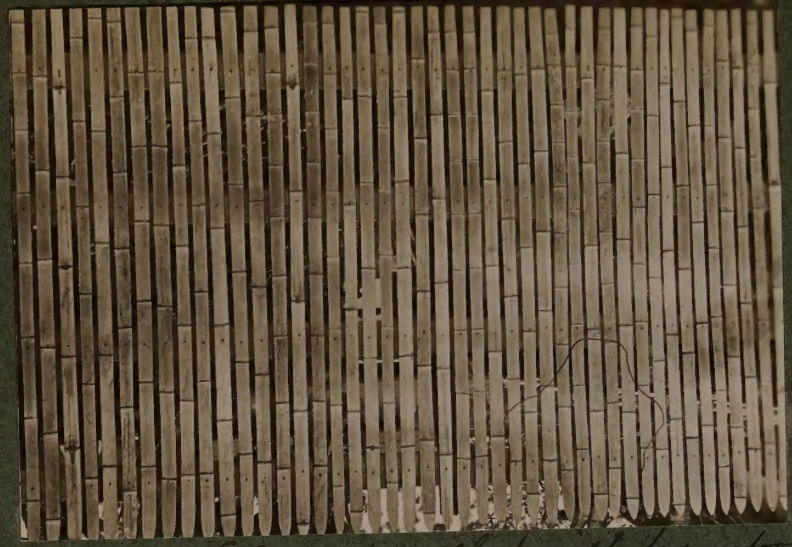
43573 A basket of bamboo shoots in the grove ready to be taken to the shed where they are kept until sent to market

43680 Paper stretched over a frame of bamboo to protect plants from frost and sun.

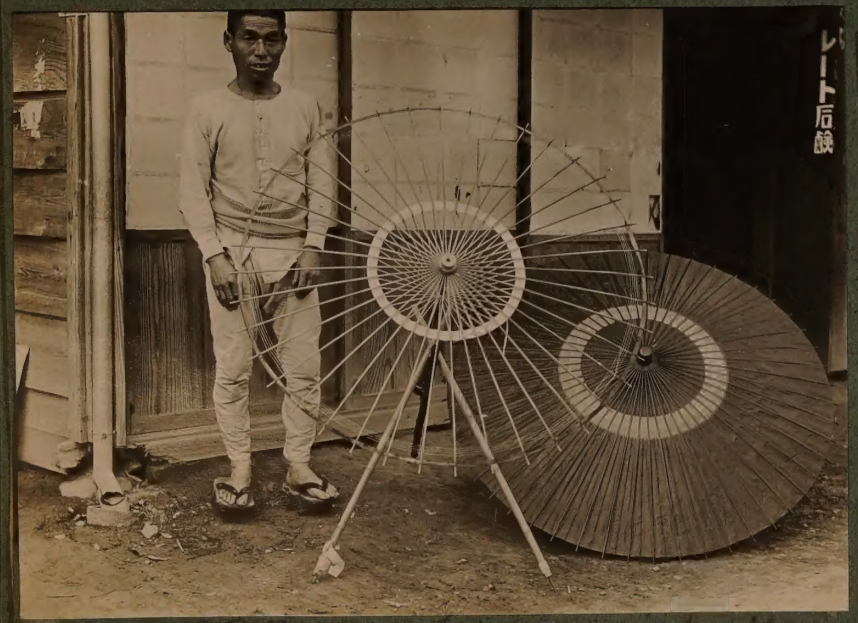
43690 School girls among the frames of cucumbers which are staked with bamboo. Agri. Exper. Sta. Kosaigaya, Japan.

43662

43691 Soy beans protected by bamboo wind break Agri. Exper. Sta. Kashigaya.



43698a Good well built bamboo fence. It is seldom that this variety of bamboo is used for fence making.



43699 Bamboo Kasa or umbrella frames ready for the cover and one already covered, also the maker of the umbrellas.

43714 An old temple on the Lake Biwa side of Mt. Hiei at Kyoto, Japan. A beautiful Azalea park at the left, and an American girl at the cleaning fountain in Temple grounds.
